Responsible and sustainable design of
living and working spaces.

CIRCLE

TECHNICAL SHEET

CIRCLE

The acoustic or luminous circle are created from a textile material made of Varian® : a hybrid and biosourced material made of flax fibre.

Manufactured in France by the company CULTURE IN, the Varian® hangers are eco-designed, without VOC emissions, ensuring optimal air quality. The Varian® meets the requirements of the BREEAM and LEED standards.

Varian® acoustic solutions are available without fire treatment for the smallest possible ecological footprint, or with fire treatment to meet fire standards.

Ideal for interior design, our circle are designed to cover living and working spaces. Assembled with a metal wire, fixed to the ceiling, the medallions are fitted with an acoustic filter to help absorb sound and dress up spaces. Our medallions can also be illuminated for a more decorative and warm look.

CIRCLE

TECHNICAL CHARACTERISTICS

Dimension	Circle					
	Size S		Size M		Size L	
Diameter (mm)	300		450		600	
Depth (mm)	40		40		40	
Reference	1CIRA001	💡 1CIRL001	1CIRA002	💡 1CIRL002	1CIRA003	💡 1CIRL003
